Opis produktu

In Color Fox you must collect as many sets of matches as possible. An ingenious game of strategy, observation and luck. Arrange the cards to match colors. Each matchstick you form earns a stick. Be the one with the most sets of sticks to win!

Step 1: 3 cards are dealt to each player (they are not shown to the rest), the rest of the cards are left in a discard pile face down and the colored sticks are placed within reach of all players. A card from the discard pile is played face up

Step 2: On their turn, each player must place one of the cards from their hand next to the cards in play so that the color of at least one matchstick matches. In doing so, he picks up a stick of that color. It is important that the cards always have the same orientation.

Step 3: Sort the sticks you have collected by sets of different colors (you cannot have the same color twice in the same set). A set can include up to 6 sticks. Count your score according to the rules of the game. The player with the highest score wins.
